Cleaning & Disinfectant Guide

September, 2020

Thermofoil Finishes

A clean surface is more important now than ever. A stringent program of cleaning and disinfecting has been proven to reduce the incidence of infectious diseases. Republic Elite's Thermofoil surfaces have been lab tested with the following cleaning agents and disinfectants and were shown to have no discoloration or damage to the finish when repeatedly cleaned and disinfected. All cleaners and disinfectants listed below meet EPA criteria for use against SARS-CoV-2, the novel coronavirus that causes COVID-19.
