

Grey Macaubas

Grey Macaubas Quartzite is a Brazilian quartzite of greys with deep random charcoal veins.

PRICE GROUP 7

PHYSICAL TEST RESULTS

		Metric
Absorption by weight	ASTM C97	0.36%
Density	ASTM C97	2 652 kg/m ³
Compressive strength	ASTM C170	156.4 MPa
Flexural strength	ASTM C880	18.5 MPa
Modulus of rupture	ASTM C99	10.2 MPa

Natural stone products inherently lack uniformity & are subject to variation in aesthetics – color, shade, finish, etc. and performance – hardness, strength. When & where your stone is quarried will affect color. Check local building codes prior to specification & installation to verify that the product technical characteristics comply with required parameters. Final selection should be made from sample submittals. The existence & dimensions of bevel may vary from lot to lot. WARNING: This product can expose you to chemicals known by the State Of California to cause cancer, including crystalline silica (airborne particles of respirable size) in dust created if the product is dry cut/ground/polished or pulverized during fabrication/installation/removal.
